SHADE

SEE OUR WORK

Life, beautifully outside.

ELEVATION SHADE CO. / BUILT BY ELEVATION BUILD CO.

OUR WORK / COLORADO OUTDOOR LIVING

Many homes. A personal approach.

Explore our installations, from intimate patios and open-air kitchens to screened rooms and expansive decks.

The modern outdoor lounge.

Louvers, integrated heat and a comfortable place to gather.

A roof across the rear facade.

A continuous architectural line along a full-width patio.

An evening on the deck.

Warm lighting transforms the roof into a place to linger.

An evening gathering place.

A sheltered lounge, warm lighting and an intimate outdoor setting.

Architecture, extended.

A dark roof frame connects a contemporary home to the garden.

FROM OUR PROJECT PORTFOLIO

The woodland outdoor kitchen.

Shelter above the counter, with the garden still in view.

A little more shelter.

Screened edges and overhead heat in a snowy garden setting.

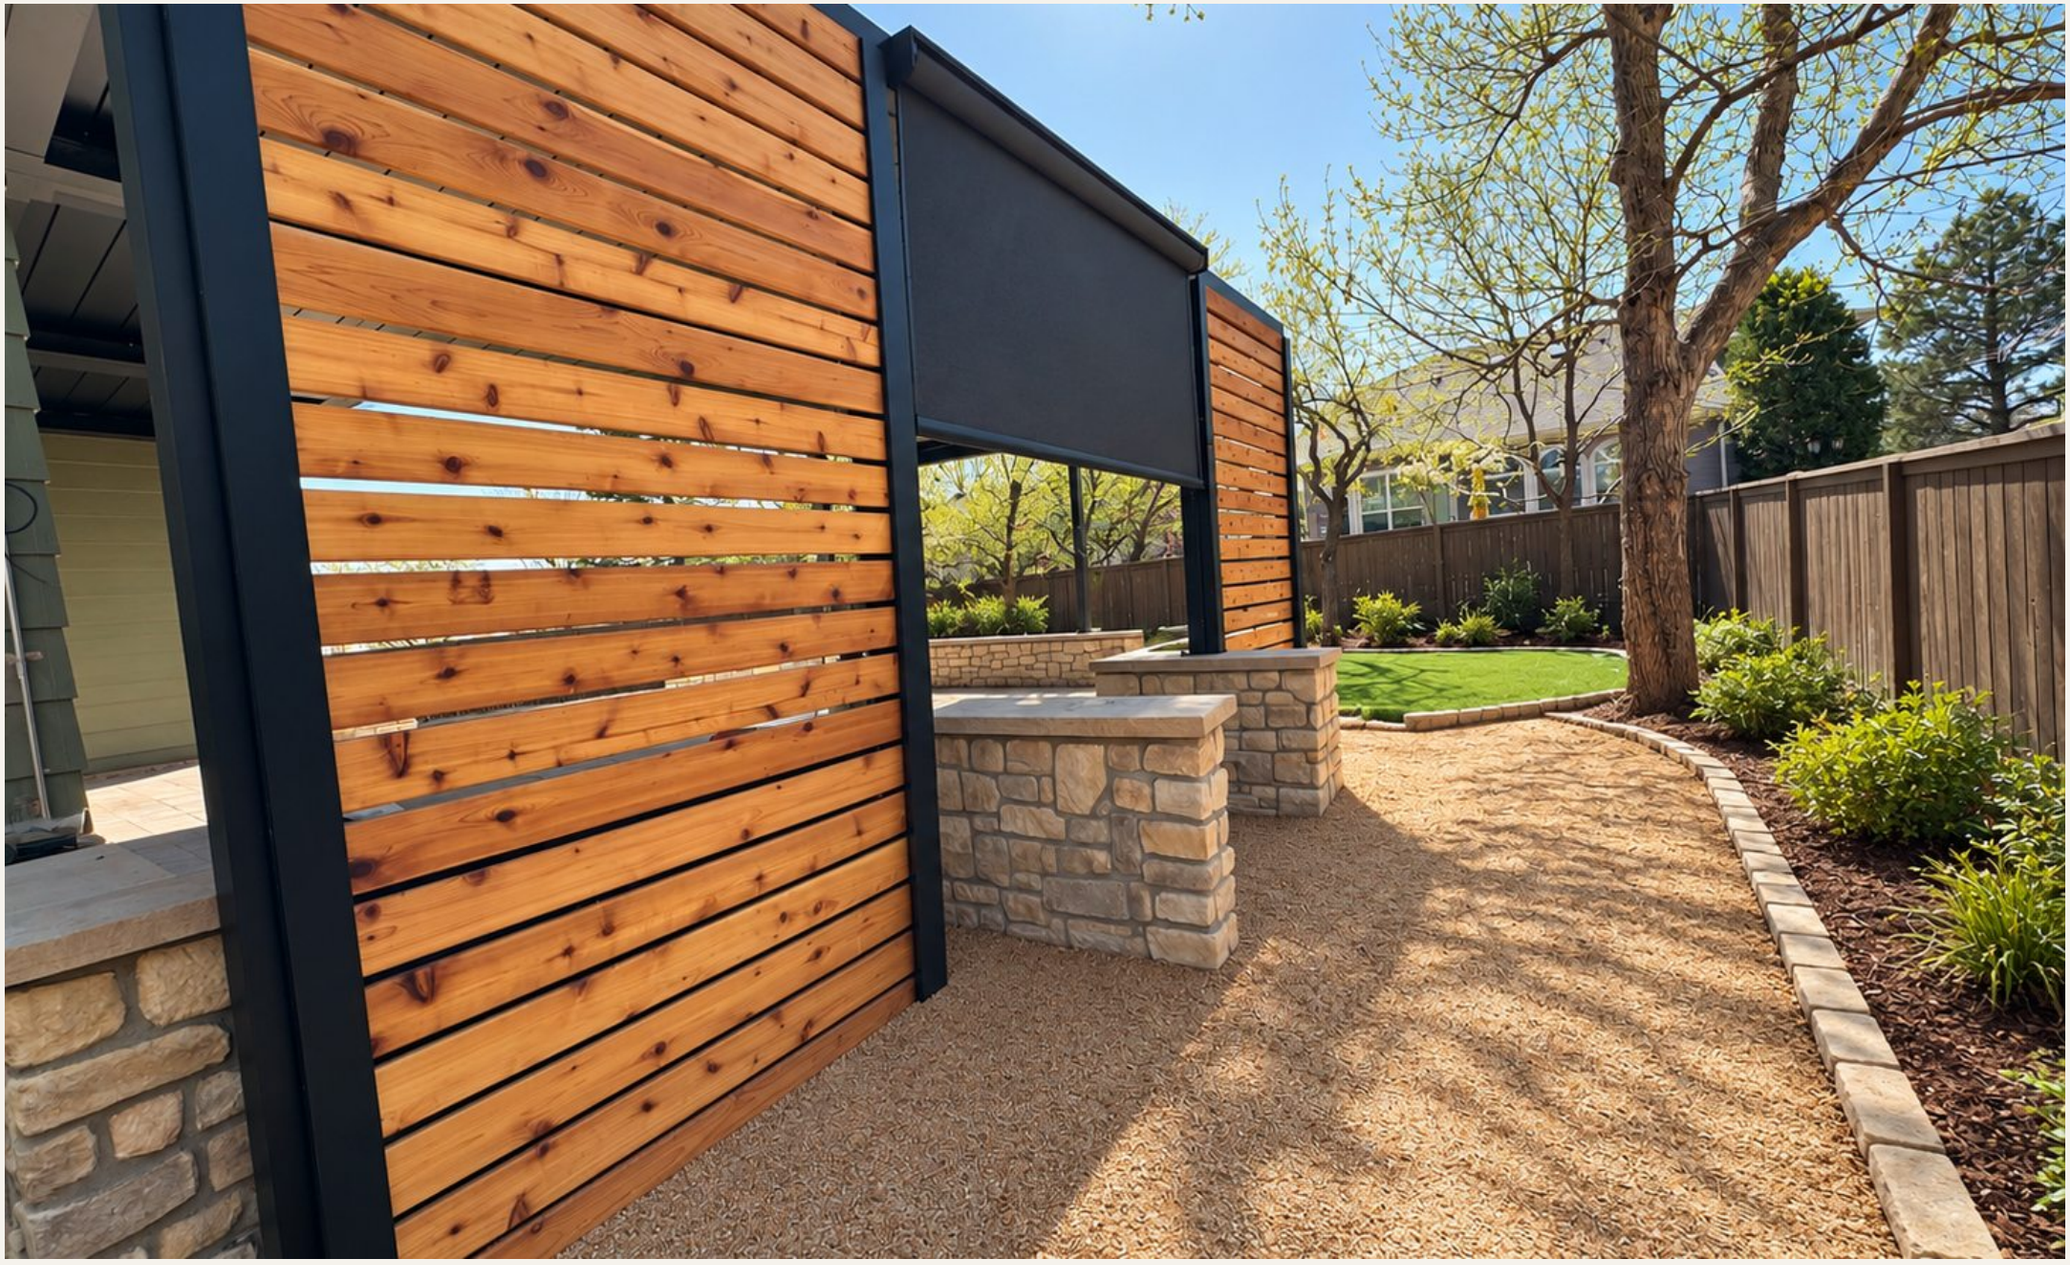

A garden pavilion.

Substantial framing, a stone fireplace and a dedicated gathering space.

Made for gathering.

A shaded kitchen and patio beside the home.

Privacy with warmth.

Horizontal wood slats, dark framing and a stone base.

A terrace for the view.

Light louvers and a dark frame above an elevated patio.

The sheltered porch.

Retractable-screen details integrated into an existing covered patio.

FROM OUR PROJECT PORTFOLIO

A room at the landscape edge.

Dark framing and screen panels open the terrace to a wider view.

Keep the long view.

White framing and a light ceiling beside the home.

Color study on our installed work.

An open porch, more adaptable.

Screen systems fitted to an existing roof and deck.

A bungalow in the trees.

Adjustable louvers above a compact garden patio.

FROM OUR PROJECT PORTFOLIO

Warm tones. Open sky.

A brown frame and light louvers on an elevated deck.

SELECTED PROJECTS / IN CLOSER VIEW

A closer look at the spaces we build.

A selection of courtyards, screened rooms, decks and outdoor kitchens, shown from more than one perspective.

FEATURED PROJECT / DENVER WASH PARK

The courtyard, complete.

A louvered roof, architectural privacy and integrated lighting bring the dining terrace and lounge into one outdoor room.

THE BRICK COURTYARD / LOUVERS CLOSED

Close the louvers. Change the room.

Light louvers form a continuous overhead plane above the table, framed by warm brick and horizontal privacy panels.

THE BRICK COURTYARD / THE COMPLETE SETTING

A natural connection to the kitchen.

Existing steps, the outdoor cooking area and the sheltered courtyard meet in one considered layout.

THE BRICK COURTYARD / LOUNGE + DINING

Room to dine. Room to linger.

The roof extends the original wood-ceiling porch, connecting the lounge and dining area without losing the character of the home.

Privacy, with presence.

Horizontal slats carry a calm rhythm along the edge of the courtyard. Dark posts connect the wall visually to the roof above.

A close look at the actual exterior shows the wall spacing, metal framing and relationship to the existing brick home.

THE BRICK COURTYARD / LIGHT + SPACE

Designed as one outdoor space.

Adjustable louvers. Recessed puck lighting. Architectural privacy. A complete setting for cooking, dining and gathering.

SELECTED PROJECT

The screened garden room.

SHADE / SCREENS / COMFORT

Shelter, with a view.

Exterior screens, adjustable louvers and overhead heaters are considered together.

SELECTED PROJECT

The poolside gathering place.

LOUVERS / LOUNGE / OUTDOOR KITCHEN

A roof for outdoor living.

A second view of the poolside installation, with light louvers above the brick patio.

SELECTED PROJECT

The garden, framed.

RETRACTABLE SCREENS / LOUVERED ROOF

Open to the day.

The open patio and a closer roof-and-drainage view show how the details come together.

SELECTED PROJECT

The estate deck.

DARK FRAME / OPEN-AIR LIVING

Designed around the house.

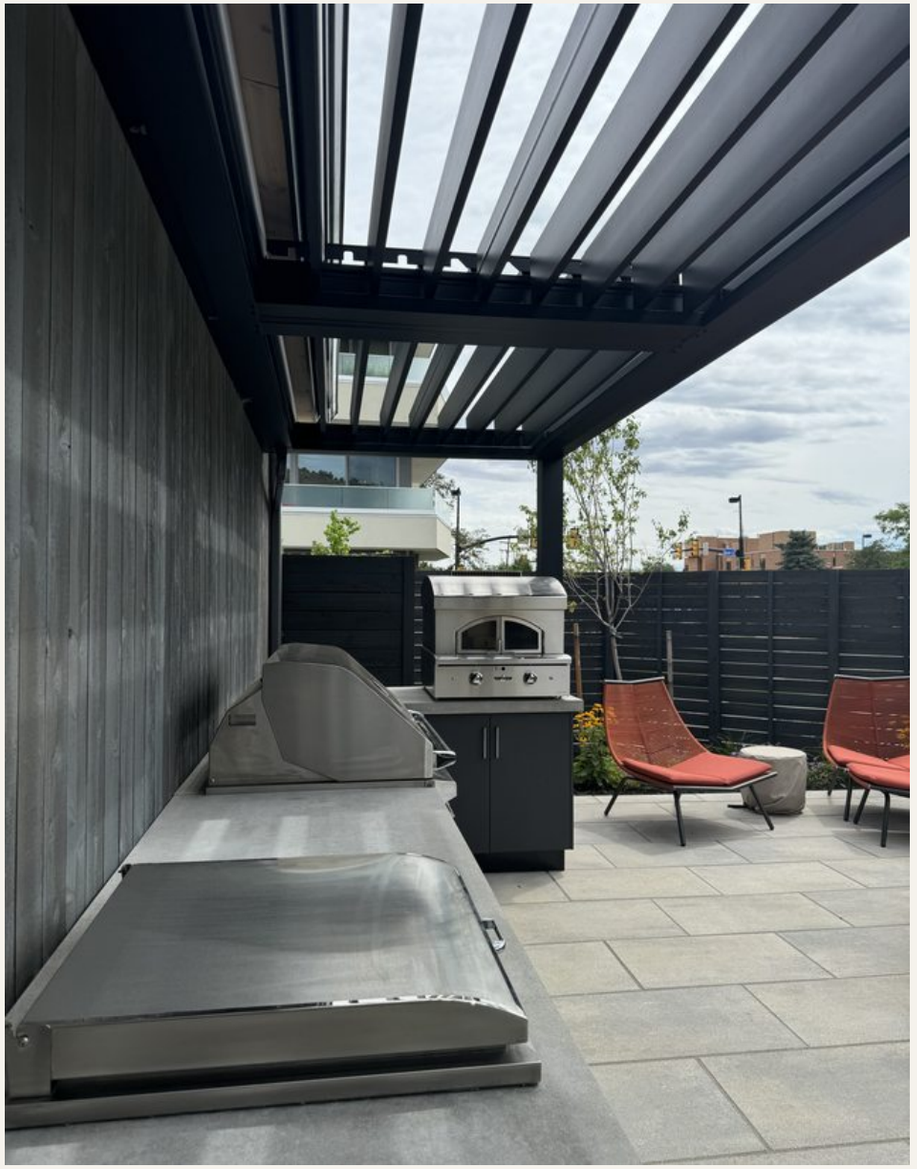

An additional view of the same estate-deck installation.

SELECTED PROJECT

The outdoor kitchen.

COOKING / DINING / SHADE

Roof, cabinetry and privacy details in one outdoor setting.

COMMERCIAL WORK / LOVELAND CHURCH

Room for the whole gathering.

Two louvered roofs, retractable clear-vinyl enclosures, heaters and bistro lighting create an adaptable outdoor event setting.

Project archive / digitally refined project imagery.

Designed for shared occasions.

Shelter that adapts.

Louvered roofs and clear-vinyl drop-downs let an event space respond to changing conditions while keeping the building in view.

Our scope brings the roof, enclosure edges, heating and lighting together through coordination with the project team.

Project-based visualization / enclosure detail from our earlier project collection.

From an open patio to an outdoor room.

BEFORE

AFTER

Matched views from our project archive. Finished imagery retouched for presentation.

From the frame to the finished room.

OUR TEAM AT WORK

The people behind the details.

ELEVATION BUILD CO. / ON SITE

OUR TEAM AT WORK

Built by the hands you see here.

SCREEN ASSEMBLY / OUTDOOR KITCHEN

From installation to everyday living.

ON SITE

THE FINISHED SETTING

Our installation team works through the framing, louvers and final connections on the same garden-room project.

Comfort belongs in the design.

Actual installed heating, louvers and lighting from our project archive. Placement and integration follow the selected system.

A tailored perimeter.

A stepped cornice profile adds depth to the fascia, coordinated with the frame finish.

Cornice and color study on our rear-patio installation.

INSET HEATERS / ACCESSORY DETAIL

Warmth, thoughtfully inset.

Coordinated accessory housings create a visually composed overhead detail.

Inset-heater study based on our poolside installation.

THE PEOPLE BEHIND THE WORK

Built with care.

The details begin long before the last louver goes in.

Elevation Build Co. coordinates the installation around your home, from preparation and connections to the finishing details.

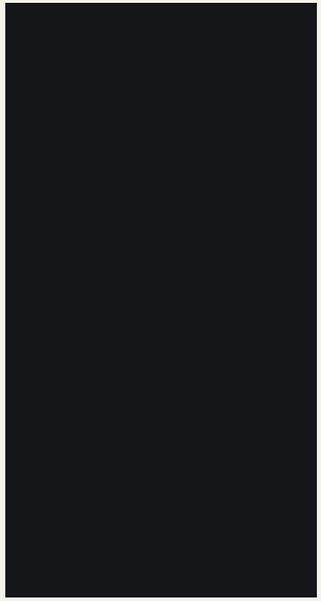

ELEVATION BUILD CO.

Our team. Your outdoor room.

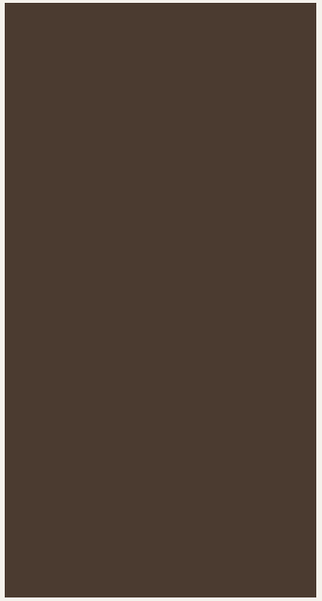

Your signature finish.

FINE TEXTURE / MATTE APPEARANCE

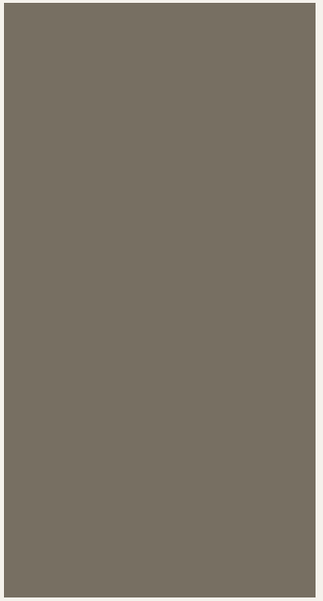

Black

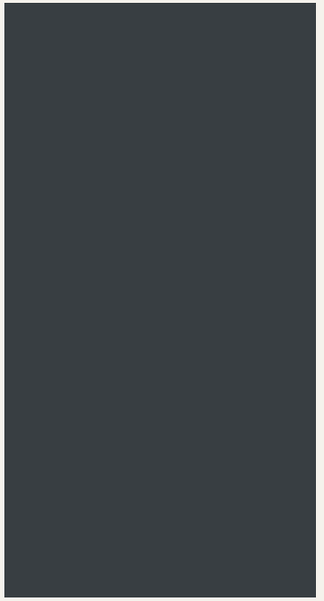

Mocha Brown

Linen

White

Taupe Gray

Anthracite Charcoal

One coordinated palette. Pair a dark frame with light louvers, or carry your chosen color throughout.

Digital swatches are approximate. Select the final color, texture and sheen from coated-metal samples. Availability is confirmed for each order.

CUSTOM COLORS

Your color. Your signature.

We offer custom powder-coat colors for a finish that feels at home with your architecture.

Match a favorite exterior accent, coordinate with windows and doors, or create a distinctive frame-and-louver combination.

SHOWN: STEEL BLUE + WHITE

Custom colors are quoted individually. We confirm samples, availability and lead time before ordering.

Color study on one of our installed projects. Colors shown are approximate.
